

KAMIAH JOINT SCHOOL DISTRICT #304

Safe Return to In-Person Instruction and Continuity of Services

Website Link: ( Need to add)

July 27, 2022 - Draft

## **Introduction**

Schools are an important part of the infrastructure of communities. Kamiah Joint School District is committed to providing a safe and supportive environment for students that supports social and emotional development, and provides access to services and improves life outcomes. Although COVID-19 outbreaks have occurred in school settings, multiple studies have shown that transmission rates within the school setting, when multiple prevention strategies are in place, are typically lower than community transmission levels.

Kamiah Joint School District is committed to working with the local public health department to determine necessary protocols and prevention strategies. School Administrators consider multiple factors when they make decisions about implementing prevention strategies against COVID-19. Kamiah Joint School District #304 has created a Covid 19 Committee that recommends protocols to the Kamiah Joint School District Board of Trustees that the district follows to ensure the safety of staff and students.

## **Mitigation Strategies (Table 1)**

### **Vaccination**

Vaccination is currently the leading public health prevention strategy to prevent COVID-19. People who are fully vaccinated against COVID-19 are at a lower risk of symptomatic or severe infection. Evidence suggests that people who are fully vaccinated against COVID-19 are less likely to have an asymptomatic infection, or transmit COVID-19 to others, than people who are not fully vaccinated.

For additional information regarding vaccination clinics, or for other related additional information, contact North Central Health District at (208) 882-7506 or access the website at:

<https://www.idahopublichealth.com/>

### **Optional Universal and Correct Wearing of Masks**

When individuals who are not vaccinated wear masks consistently and correctly they may protect others as well as themselves. Consistent and correct mask use is especially important in crowded settings, when physical distancing cannot be maintained. Mask use is optional for all students and staff, unless the Kamiah Joint School District #304 Board of Trustees determines a mask mandate is necessary.

- Indoors. Mask use is recommended by the CDC for those who are not fully vaccinated, including students, teachers and staff. Children under 2 years of age should not wear a mask.
- Outdoors. In general, people do not need to wear masks when outdoors. However, CDC recommends people who are not fully vaccinated to wear masks when in a crowded outdoor setting, or during activities that involve sustained close contact with others who have not been fully vaccinated.

When masks are worn by teachers, staff, or students, the masks should meet one of the following criteria:

[CDC Mask Recommendations](#)

[ASTM International Standard Specification for Barrier Face Coverings](#)

[NIOSH Workplace Performance and Performance Plus Masks](#)

***\*Kamiah Joint School District will be supportive of people who are/are not fully vaccinated, and choose to wear a mask, as a personal choice, or because they have a medical condition that may weaken their immune system.***

### **Modifying Facilities**

Staff and families of students will be made aware of any situations where students and/or staff have been exposed. If there is a confirmed case of COVID-19 within the school district, parents and students will be notified and given safety/ health recommendations or guidelines to follow. If necessary, classrooms may be rearranged, or moved to a different area, to allow for different physical distancing.

Kamiah Joint Schools may implement the use of Cohorting when working in small groups. The use of Cohorting can limit the spread of COVID-19 between cohorts, but should not replace other prevention measures within each group. Cohorting means keeping people together in a small group and having each group stay together throughout an entire day. Cohorting can be used to limit the number of students, teachers, and staff who come in contact with each other, especially when it is challenging to maintain physical distancing.

Physical Distancing: Based on studies from 2020-2021, the CDC recommends schools maintain at least 3 feet of physical distance between students within the classroom, for people who are not fully vaccinated to reduce transmission risk.

### **Handwashing and Health Etiquette**

Staff and students will be encouraged to practice handwashing and respiratory etiquette (covering coughs and sneezes) to keep from getting and spreading infectious illnesses, including COVID-19.

- Hand sanitizer will also be available for students to utilize.
- Students will be encouraged to wash hands with soap and water for at least 20 sec.
- Teaching healthy habits such as covering mouth and nose appropriately.

### **Cleaning and Maintaining Healthy Facilities**

- Standard cleaning procedures will be done daily.
- Bathrooms cleaned daily.
- Desks and chairs wiped down daily.
- Handrails, door knobs, light switches, telephones, sinks, drinking fountains, countertops wiped down daily.
- Lunchroom tables will be cleaned prior and after each meal service.
- Classrooms will be vacuumed daily.
- Computer labs / keyboards will be disinfected after use.
- Trash will be removed daily from the classroom / building.
- Cafeteria will be cleaned as required on a daily basis.
- Food service staff will wear gloves and masks and other PPE if necessary.
- Hand sanitizer, soap/paper towels and tissues will be made available to all employees/students.

- Plastic gloves will be made available to all employees.
- Gymnasiums and locker rooms will be cleaned daily.

### **Transportation**

The following procedures will be in place throughout the school year regarding the cleaning and sanitizing of buses used for student transportation.

- Cleaning of seats will be done following every route or event.
- Students will be asked to set with family members when possible. Assigned seats may be given.
- Hand sanitizer will be made available on buses for student/driver use.

### **Contact Tracing**

Kamiah Joint School District will continue to collaborate with state and local health departments to confidentially provide information about people diagnosed with, or exposed to, COVID-19. This allows the district to identify which students, teachers, and staff with positive test results should isolate and /or quarantine. School officials will notify, to the extent allowable by law, teachers, staff, and families of students, who were close contacts, as soon as possible (within the same day if possible) after the district is notified that someone within the school has tested positive.

***\*Fully vaccinated people who were in close contact with someone who has COVID-19, but do not have symptoms, do not need to quarantine or be tested.***

### **Diagnostic and Screening Testing**

Screening testing identifies infected people, including those with or without symptoms. In K-12 schools, screening can help promptly identify and isolate cases, quarantine those who may have been exposed to COVID-19 and are not fully vaccinated, and identify clusters to reduce the risk to in person education.

***Kamiah School District will not be screening students or staff.*** Students and /or staff who have been directly exposed\* will be asked to remain at home for 10 calendar days from the last day of exposure.

***\*If students or staff have been vaccinated and are non-symptomatic, they will not be required to quarantine.***

Students, teachers, and staff who have symptoms of infectious illness, such as influenza (flu) or COVID-19, will be encouraged to speak to their healthcare provider for possible testing and care.

### **Vaccinations**

Existing laws and regulations require certain vaccinations for children attending school. Parents are encouraged to provide documentation of students' vaccination status to enable quicker identification of non-vaccinated students, who may need to be quarantined if they are exposed to someone who has tested positive with COVID-19.

The protocol to collect, secure, use and disclose information will comply with relevant statutory and regulatory requirements, including Family Educational Rights and Privacy Act (FERPA) statutory and regulatory requirements.

### **Accommodations for Children with Disabilities**

Staff and Students of at-risk students will be encouraged to speak to a health care provider about safety protocols that are being recommended for them in a school environment. The Kamiah Joint School District #304 will comply with any accommodations written in IEP's or 504 plans regarding Covid preventative measures or procedures.

### **Attendance and Absenteeism**

Kamiah Joint School District will monitor student and staff attendance on a daily basis. Students and staff will be encouraged to stay home when sick, especially if they have any cold or flu like symptoms. Students will also be sent home if they are running a fever (100.4), or display any signs of cold or flu like symptoms. Students and staff may return to school after 24 hours with no fever, no cough and no signs of illness are evident.

If the district has confirmed cases, schools will only operate under the guidance of the local health department. If school is in session, staff may take personal, sick or vacation leave, unless there are other state or federal protocols in place.

If parents are uncomfortable sending students back to school, they are encouraged to speak to Administration about possible options for online instruction. Please contact the building principal for additional information.

### **Visitors**

Kamiah Joint School District will be limiting non-essential visitors, volunteers, and activities involving external groups or organizations with people, when there is high Covid-19 community transmission. All visitors are required to be checked in and registered at the building office before entering the building.

### **Communication Plan**

Kamiah Joint School District has created a COVID Committee which will meet a minimum of every 6 months to review current protocols and the district "Safe Return to In-Person Instruction and Continuity of Services".

Covid-19 updates will be provided to the local school board and school staff when there are confirmed cases within the school community. No individual or personal information will be released to the community as a whole.

### **Narrative Information Required in District Plan (Table 2)**

#### **How the LEA is addressing, and plans to address, students' academic needs? (:)**

Kamiah School district will offer in-person instruction for students during the 2021/2022 school year. If parents are uncomfortable sending students to school, parents may contact District Administration to determine what options are available for their child(ren). Online services will be provided by Idaho Digital Learning Alliance (IDLA) for the 2021/2022 school year.

Online students must be signed up for a minimum of a semester at a time. Attendance will be counted based on the student's academic progress in the online program. District assessments will be offered to students on days when school is not in full session (PD days).

**How the LEA is addressing, and plans to address, students’ social, emotional, mental health, and other needs?**

Kamiah Joint District has a district wide focus on social emotional learning. The Kamiah Joint School District focuses on the social well being and healthy connections between peers and adults. Communications between schools, families and community is important. The Kamiah Joint School District has placed an emphasis on building lines of communication between the school district and homes of our students. During the 2020/21 school year the district purchased additional K-12 technology to allow teachers to provide direct instruction with students, regardless of the student’s location.

Beginning in 2021/22, Kamiah Joint School District has hired a full time Social-Emotional Counselor to work with students in grades K-8 who may have social, emotional, mental health, or other needs due to the pandemic. The school district has also increased special services staff to assist students with special needs, and to address learning loss from the pandemic.

**How the LEA is addressing, and plans to address, their staff’s social, emotional, mental health, and other needs?**

Kamiah Joint District has a district wide focus on social emotional health of its staff. The Kamiah Joint School District focuses on the social well-being and healthy connections of all staff members. Staff experiencing social, emotional, mental health, or other needs will be encouraged to seek help from their primary care provider. All information associated with these items will be confidential and not shared with other staff, students, or parents. Beginning in 2021/22, Kamiah Joint School District will employ additional support/training options through *SafeSchools*, to assist staff who may be experiencing social, emotional, mental health, or other needs due to the pandemic.

**The process and timeline for review and revision of the plan will take place no less than every 6 mon. through Sept. 30, 2023.**

**Lea’s need to support and/or technical assistance related to implementing strategies identified in Table 1/ Mitigation Strategies and Table 2/ Narrative Information if applicable.**

Kamiah Joint School District #304 will continue to provide support to staff and students regarding the use of 1:1 device within the district, and for those who are participating in online learning. Professional development is planned for the staff regarding the use of programs, security options, and supporting students in an online environment.
